"CustomPrint" APP developed by Custom, it is now available on Google Play, it allows to print directly from the smartphone all the data contained in it, such as calls list, texts, contacts, photos but also web pages and drawings, through Bluetooth® and Wi-Fi interface.

Available "CustomPrintService" - APP for Android 4.4 or higher which allows the direct printing without any libraries to install.

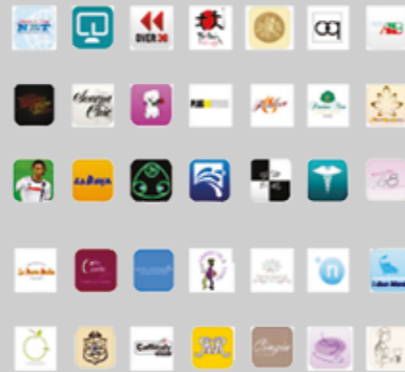

APP

THE NEW WAY OF MARKETING TO YOUR CUSTOMERS

APP Business

The Apps, proposed by Custom are modern and alternative communication and marketing tools, able to allow you to reach users directly, also through worldwide players as Apple Store and Google Play.

Self-Order

A module dedicated to food and take away, it allows automatic and quick orders made at home and a full autonomy with the customization of ingredients and features of the dishes: the connection with a kitchen orders printer leads to an immediate printing of the incoming orders.

Booking

The Booking module allows you to directly book from the APP Business and it's ideal for all the kind of businesses working through scheduled meetings, for those who rent locations and to manage assistance and training services.

APP Portale

You can put on a map the businesses that are spread in an area and manage the related events.

Fast Eat

Fast Eat is an innovative web solution to manage multilingual menus for the food service, it allows the customer to check the menu directly in his own language from the smartphone. The translation of the menu can be automatic, but you could customize on your own the menus.

CUSTOM Fidelity

A practical tool to make loyalty procedures easier and quicker. It's an integrated system between a Custom cash register and the Fidelity APP, able to handle fidelity cards directly from the smartphone. You can handle more than one loyalty card (points and gifts included) with one single app, having the balance of the collected points directly on the receipt.

- Anti Jamming System
- Illuminated paper bezel
- Multiposition paper roll
- Operating temperatures -20 +70°C±10%

WIRELESS PRINTING DONGLE

The Dongle is designed to make all Custom printers, equipped with USB or Ethernet port, connectable according to Wi-Fi IEEE 802.11 b/g/n standard or with the Bluetooth® wireless technology. The reduced footprint together with the easy installation and configuration makes it ideal to be used with Custom printers in modern wireless applications always more requested by mobility devices such as Tablet and/or Smartphone.

FOR IPAD & IPHONE

xPrintServer is an ultra compact box for iOS wi-fi connection that enables wireless printing for iOS devices using their native print menu. It eliminates the need to print through apps, to install softwares, or to email ourselves documents for printing.
